Warehouse Check-In – Haul-away

QUESTION

What are the two tools that the Warehouse Check-In Clerk must use to track haul-away returns?

Answer ...

The Warehouse Check-In Clerk must use the GE Delivers App to check in haul-away units on a per team basis & also document the piece count (unit type specific) on the Receiving Check-In sheet.

WHAT'S IN IT FOR ME?

- Accurate line of sight on haul-away units
- Prevention of returned goods scrappage
- Driver team accountability & improved engagement on HH device (ask questions!)
- Increased efficiency for the Office Check-In Clerk
- Reduction in Delivery Team opportunity for haul-away discrepancies
